

Home learning information for Parents/Carers and Students

Dear Parent/ Carer,

As we begin another period of learning from home, we have prepared a short video for you with guidance for setting things up for productive learning. Please watch this with your child and take some time to get organised and put things in place ready for next week.

<https://www.loom.com/share/670cc36d5d51499cb141f87f13e585af>

You should by now have received a letter from Mr Hall explaining that we are using the existing school timetable structure as a basis for our online live lessons, but with reduced content, so not all lessons will take place. This is because learning online is more intense than being in a physical classroom and it is therefore not reasonable for students to be expected to concentrate for a full five hours of online lessons every day. During the first online lessons for each subject, the class teacher will inform students which lessons will be live on teams for the two- week cycle and this information should be written onto a timetable document for reference. A blank timetable with the session times is attached for your reference.

Your child will also soon receive video instructions on how to use teams.

It should be stressed it is expected that students log on and engage with all online lessons. Attendance will be recorded. We have learned a lot since the previous lockdown and are now more equipped to manage remote learning effectively, so we expect students to take part and do their best.

Kind regards,

Melanie Davies
