

Risks Assessment for Newmarket Academy operating safely during the Covid 19 pandemic

This risk assessment is updated in the light of feedback, experience and guidance. Trade unions and staff are invited to comment and this is being made public via the school's website. The Department for Education's guidance is at <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

Attending school is vital for children's education and for their wellbeing. Time out of school is detrimental for children's cognitive and academic development, particularly for disadvantaged children.

The risk to children themselves of becoming severely ill from coronavirus (COVID-19) is very low and there are negative health impacts of being out of school. We know that school is a vital point of contact for public health and safeguarding services that are critical to the wellbeing of children and families. There is no evidence that children transmit the disease any more than adults, and no evidence that staff in education settings are at any greater risk of fatal outcomes than many other occupations.

Public Health England endorses a 'system of controls' that are a hierarchy of protective measures that have been in use throughout the coronavirus (COVID-19) pandemic. When implemented in line with a revised risk assessment, Government advice is that these measures create an inherently safer environment for children and staff where the risk of transmission of infection is substantially reduced.

Essential measures include:

- a requirement that people who are ill stay at home
- robust hand and respiratory hygiene
- enhanced cleaning and ventilation arrangements

- active engagement with NHS Test and Trace
- formal consideration of how to reduce contacts and maximise distancing between those in school wherever possible and minimise the potential for contamination so far as is reasonably practicable

Key to the school's risk assessment is:

- avoiding contact between groups
- arranging classrooms with forward facing desks
- staff maintaining distance from students and other staff as much as possible

Key measures to prevent spread of coronavirus are:

- o minimising contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school
- o where recommended, the use of face coverings in schools
- o clean hands thoroughly more often than usual
- o ensuring good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach
- o introducing enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents
- o minimising contact between individuals and maintain social distancing wherever possible
- o where necessary, wearing appropriate personal protective equipment (PPE)
- o always keeping occupied spaces well ventilated
- o engaging with the NHS Test and Trace process

- o managing confirmed cases of coronavirus (COVID-19) amongst the school community
- o containing any outbreak by following local health protection team advice
- o responding to additional guidance if the school is an area that moves to Local COVID Alert Level: high or very high,

Where schools implement the system of controls outlined in this document, in line with their own workplace risk assessment, Government advice is that these measures create an inherently safer environment for children and staff where the risk of transmission of infection is substantially reduced.

If staff are concerned, including those who may be clinically vulnerable, clinically extremely vulnerable or who believe they may be at possible increased risk from coronavirus, school leaders discuss any concerns individuals may have around their particular circumstances and reassure staff about the protective measures in place. New advice for those identified through a letter from the NHS or a specialist doctor as in the group deemed clinically extremely vulnerable (CEV or shielding list) was published on 13 October. The guidance provides advice on what additional measures individuals in this group can take tailored to each Local COVID Alert Level. All staff can continue to attend school at all Local COVID Alert levels.

In the future, the government will only reintroduce formal restrictive shielding advice in specific local areas at very high alert level with exceptional circumstances where this has been advised by the Chief Medical officer, and only for a limited period of time. The government will write to individuals to inform them if they are advised to follow formal shielding and not attend the workplace.

People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace unless advised otherwise by an individual letter from the NHS or a specialist doctor.

Increased ventilation may make school buildings cooler than usual over the winter months. Parents are encouraged to ensure their children wear additional, suitable indoor items of clothing to be worn during the winter period.

When children are required to self-isolate, remote learning will be provided. Remote learning will include:

- ensuring students receive clear explanations
- supporting growth in confidence with new material through scaffolded practice
- application of new knowledge or skills
- enabling students to receive feedback on how to progress

1) Principles

In order to prevent the spread of coronavirus, schools will:

- i) minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school
- ii) clean hands thoroughly more often than usual
- iii) ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach
- iv) introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach
- v) minimise contact between individuals and maintain social distancing wherever possible
- vi) where necessary, wear appropriate personal protective equipment (PPE)

2) Response to any infection

In the event of a positive test, schools will:

- i) engage with the NHS Test and Trace process
- ii) manage confirmed cases of coronavirus (COVID-19) amongst the school community
- iii) contain any outbreak by following local health protection team advice

3) Expectations in all schools

a) Prevention

i) Schools will minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school

Students, staff and other adults should not come into the school if they have coronavirus (COVID-19) symptoms, or have tested positive in the last 7 days. Schools will ensure anyone developing those symptoms during the school day is sent home.

If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection', which sets out that they must self-isolate for at least 7 days and should arrange to have a test to see if they have coronavirus (COVID-19). Other members of their household (including any siblings) should self-isolate for 14 days from when the symptomatic person first had symptoms.

If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.

If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom must be cleaned and disinfected using standard cleaning products before being used by anyone else.

PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). Staff will all be provided with training on when PPE is needed.

Any members of staff who have helped someone with symptoms and any students who have been in close contact with them do not need to go home to self-isolate unless they develop symptoms themselves (in which case, they should arrange a test) or if the symptomatic person subsequently tests positive (see below) or they have been requested to do so by NHS Test and Trace.

Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned with normal household bleach after they have left to reduce the risk of passing the infection on to other people.

Public Health England is clear that routinely taking the temperature of students is not recommended as this is an unreliable method for identifying coronavirus (COVID-19).

ii) Schools will ensure that staff and students clean their hands thoroughly more often than usual

Schools must ensure that students clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating. Each school is:

- checking whether it has enough hand washing or hand sanitiser 'stations' available so that all students and staff can clean their hands regularly
- ensuring supervision of hand sanitiser use given risks around ingestion. Small children and students with complex needs should continue to be helped to clean their hands properly. Skin friendly skin cleaning wipes can be used as an alternative
- building these routines into school culture, supported by behaviour expectations and helping ensure younger children and those with complex needs understand the need to follow them

iii) Schools will ensure that good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach

The 'catch it, bin it, kill it' approach continues to be very important, so schools must ensure that they have enough tissues and bins available in the school to support students and staff to follow this routine. As with hand cleaning, schools must ensure younger children and those with complex needs are helped to get this right, and all students understand that this is now part of how school operates. Some students with complex needs will struggle to maintain as good respiratory hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant. This should be considered in risk assessments in order to support these students and the staff working with them, and is not a reason to deny these students face to face education.

Public Health England does not (based on current evidence) recommend the use of face coverings in schools. Newmarket Academy is clear that a decision to wear a face mask or any other form of PPE is at the individual's discretion and this decision will be supported by all students and staff.

iv) Schools will have enhanced cleaning, including cleaning frequently touched surfaces often using standard products, such as detergents and bleach

Each school will have a cleaning schedule that ensures cleaning is generally enhanced and includes:

- more frequent cleaning of rooms / shared areas that are used by different groups
- frequently touched surfaces being cleaned more often than normal
- that toilets are cleaned regularly and students must be encouraged to clean their hands thoroughly after using the toilet

v) Schools will minimise contact between individuals and maintain social distancing wherever possible

This includes keeping where possible to children staying in the same group or ‘bubble’ – in primary schools as a class and in secondary schools as a year group. Where possible, staff will be part of a bubble with children or maintain distance from their students. In the later case, staff should stay at the front of the class, and away from their colleagues where possible. Ideally, adults should maintain 2 metre distance from each other, and from children. In particular, they should avoid close face to face contact and minimise time spent within 1 metre of anyone.

Schools should make small adaptations to the classroom to support distancing where possible. That should include seating students side by side and facing forwards, rather than face to face or side on, and moving unnecessary furniture out of classrooms to make more space.

Groups should be kept apart. Schools will avoid large gatherings and only hold assemblies or collective worship with one group or virtually with more groups.

When timetabling, groups will be kept apart and movement around the school site will be kept to a minimum. Schools will avoid creating busy corridors, entrances and exits and consider staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).

Schools will also plan how shared staff spaces are set up and used to help staff to distance from each other. Use of staff rooms will be minimised, although staff will have a break of a reasonable length during the day.

vi) Where necessary, staff will wear appropriate personal protective equipment (PPE)

The majority of staff in education settings will not require PPE beyond what they would normally need for their work. PPE is only needed in a very small number of cases, including:

- where an individual child or young person becomes ill with coronavirus (COVID-19) symptoms while at schools, and only then if a distance of 2 metres cannot be maintained
- where a child or young person already has routine intimate care needs that involves the use of PPE, in which case the same PPE should continue to be used

Staff will be trained on the use of PPE should it be needed.

b) Response to any infection

i) Schools will engage with the LA Test and Trace process

Staff members and parents/carers will be briefed to understand that they will need to be ready and willing to:

- book a test if they are displaying symptoms. Staff and students must not come into the school if they have symptoms, and must be sent home to self-isolate if they develop them in school. All children can be tested, including children under 5, but children aged 11 and under will need to be helped by their parents/carers if using a home testing kit
- provide details of anyone they have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test and Trace
- self-isolate if they have been in close contact with someone who develops coronavirus (COVID-19) symptoms or someone who tests positive for coronavirus (COVID-19)

Anyone who displays symptoms of coronavirus (COVID-19) can and should get a test. Tests can be booked online through the NHS testing and tracing for coronavirus website, or ordered by telephone via NHS 119 for those without access to the internet. Essential workers, which includes anyone involved in education or childcare, have priority access to testing.

By the autumn term, all schools will be provided with a small number of home testing kits that they can give directly to parents/carers collecting a child who has developed symptoms at school, or staff who have developed symptoms at school, where they think providing one will significantly increase the likelihood of them getting tested. Advice will be provided alongside these kits.

Schools will ask parents and staff to inform them immediately of the results of a test:

- if someone tests negative, if they feel well and no longer have symptoms similar to coronavirus (COVID-19), they can stop self-isolating. They could still have another virus, such as a cold or flu – in which case it is still best to avoid contact with other people until they are better. Other members of their household can stop self-isolating.
- if someone tests positive, they should follow the ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’ and must continue to self-isolate for at least 10 days from the onset of their symptoms and then return to school only if they do not have symptoms other than cough or loss of sense of smell/taste. This is because a cough or anosmia can last for several weeks once the infection has

gone. The 7-day period starts from the day when they first became ill. If they still have a high temperature, they should keep self-isolating until their temperature returns to normal. Other members of their household should continue self-isolating for the full 14 days.

ii) Schools will follow the guidance in managing confirmed cases of coronavirus

Schools will take swift action when they become aware that someone who has attended has tested positive for coronavirus (COVID-19). Schools should contact the local health protection team and the trust central team. The local health protection team provides the advice that must be followed. In the event that this advice is slow and heads need to make rapid decisions, the trust central will support heads with this. All Professional Associations will be informed of actions being taken

Based on the advice from the health protection team, schools must send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 14 days since they were last in close contact with that person when they were infectious. Close contact means:

- direct close contacts - face to face contact with an infected individual for any length of time, within 1 metre, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin)
- proximity contacts - extended close contact (within 1 to 2 metres for more than 15 minutes) with an infected individual
- travelling in a small vehicle, like a car, with an infected person

The health protection team will provide definitive advice on who must be sent home. To support them in doing so, schools keep a record of students and staff in each group, and any close contact that takes places between children and staff in different groups. (Schools do not need to ask students to record everyone they have spent time with each day or ask staff to keep definitive records in a way that is overly burdensome.)

A template letter will be provided to schools, on the advice of the health protection team, to send to parents and staff if needed. Schools will not share the names or details of people with coronavirus (COVID-19) unless essential to protect others. Newmarket Academy will be in contact with parents and carers to reassure them that appropriate action has been taken

Household members of those contacts who are sent home do not need to self-isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms. If someone in a class or group that has been asked to self-isolate develops symptoms themselves within their 14-day isolation period they should follow 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection'. They should get a test, and:

- if the test delivers a negative result, they must remain in isolation for the remainder of the 14-day isolation period. This is because they could still develop the coronavirus (COVID-19) within the remaining days.
- if the test result is positive, they should inform their setting immediately, and must isolate for at least 7 days from the onset of their symptoms (which could mean the self-isolation ends before or after the original 14-day isolation period). Their household should self-isolate for at least 14 days from when the symptomatic person first had symptoms, following ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’

Schools will not request evidence of negative test results or other medical evidence before admitting children or welcoming them back after a period of self-isolation.

iii) Schools will look to contain any outbreak by following local health protection team advice

If schools have two or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, they may have an outbreak, and will continue to work with their local health protection team who will be able to advise if additional action is required.

In some cases, health protection teams may recommend that a larger number of other students self-isolate at home as a precautionary measure – perhaps the whole site or year group. If schools are implementing controls from this list, addressing the risks they have identified and therefore reducing transmission risks, whole school closure based on cases within the school will not generally be necessary, and should not be considered except on the advice of health protection teams.

In consultation with the local Director of Public Health, where an outbreak in a school is confirmed, a mobile testing unit may be dispatched to test others who may have been in contact with the person who has tested positive. Testing will first focus on the person’s class, followed by their year group, then the whole school if necessary, in line with routine public health outbreak control practice.

In this event, all stakeholders will be informed at the earliest opportunity as contingency planning is being formulated

c) Transport

i) Dedicated school transport, including statutory provision

Schools will arrange, and discuss with transport providers:

- the way students are grouped together on transport, where possible, will reflect the bubbles that are adopted within school

- use of hand sanitiser upon boarding and/or disembarking
- additional cleaning of vehicles
- organised queuing and boarding where possible
- distancing within vehicles wherever possible
- the use of face coverings for children over the age of 11, where appropriate, for example, if they are likely to come into very close contact with people outside of their group or who they do not normally meet

ii) Wider public transport

Use by students of public transport, particularly in peak times, will be kept to an absolute minimum. Schools will work with partners to consider staggered start times to enable more journeys to take place outside of peak hours.

Schools encourage parents, staff and students to walk or cycle to school if at all possible, and will consider using ‘walking buses’.

Families using public transport or taxis should refer to the safer travel guidance for passengers and guidance from the Local Authority

d) Other issues

Attendance

School is not optional. School attendance will be mandatory again from the beginning of the autumn term. This means from that point, the usual rules on school attendance will apply, including:

- parents’ duty to secure that their child attends regularly at school where the child is a registered student at school and they are of compulsory school age;
- schools’ responsibilities to record attendance and follow up absence
- the availability to issue sanctions, including fixed penalty notices in line with local authorities’ codes of conduct

Students who are shielding or self-isolating

The majority of students, including those shielding earlier in the year, will be able to return to school.

- A small number of students will still be unable to attend in line with public health advice because they are self-isolating and have had symptoms or a positive test result themselves; or because they are a close contact of someone who has coronavirus (COVID-19)
- Shielding advice for all adults and children will pause on 1 August. This means that even the small number of students who will remain on the shielded patient list can also return to school, as can those who have family members who are shielding.
- if rates of the disease rise in local areas, children (or family members) from that area, and that area only, will be advised to shield during the period where rates remain high and therefore they may be temporarily absent.
- Some students no longer required to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school.

Where a student is unable to attend school because they are complying with clinical and/or public health advice, schools will look immediately to offer them access to remote education.

Staff who are clinically vulnerable or extremely clinically vulnerable

The Government expects all staff, including those who are extremely clinically vulnerable and clinically vulnerable, to return to the workplace. Those in the most at risk categories should take particular care.

People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace.

As a general principle, pregnant women are in the 'clinically vulnerable' category and are advised to follow the relevant guidance available for clinically-vulnerable people.

Staff who may otherwise be at increased risk from coronavirus (COVID-19)

If people with significant risk factors are concerned, school leaders will discuss their concerns and explain the measures the school is putting in place to reduce risks. School leaders will try as far as practically possible to accommodate additional measures where appropriate.

People who live with those who have comparatively increased risk from coronavirus (COVID-19) can attend the workplace.

Educational visits

Overnight and overseas educational visits will not be taking place.

Schools may resume non-overnight domestic educational visits. As normal, schools will undertake full and thorough risk assessments in relation to all educational visits to ensure they can be done safely. As part of this risk assessment, schools will consider what control measures need to be used and will consult the trust health and safety officer when considering visits.

School uniform

Schools will have their usual uniform policies in the autumn term. Uniforms do not need to be cleaned any more often than usual, nor do they need to be cleaned using methods which are different from normal. Schools will be mindful and considerate in relation to parents who may be experiencing financial pressures.

Specific curriculum provision and extra-curricular provision

Schools will work towards resuming breakfast and after-school provision, where this is possible and was previously in place. Schools will look to keep children within their year groups or bubbles where possible but if this is not possible, will use small, consistent groups. As with physical activity during the school day, contact sports will not take place.

When students are playing instruments or singing in small groups such as in music lessons, schools will use physical distancing and play outside wherever possible, limiting group sizes to no more than 15, positioning students back-to-back or side-to-side, avoiding sharing of instruments, and ensuring good ventilation. Singing, wind and brass playing will not take place in larger groups such as school choirs and ensembles, or school assemblies.

Students will be kept in consistent groups for physical activity, sports equipment will be thoroughly cleaned between each use by different individual groups, and contact sports will not take place.

Contingency planning for outbreaks

Process in the event of local outbreaks

If a local area sees a spike in infection rates that is resulting in localised community spread, appropriate authorities will decide which measures to implement to help contain the spread. The Department for Education will be involved in decisions at a local and national level affecting a geographical area, and schools will follow advice provided.

Contingency plans for outbreaks

Schools will have in place remote education plans for individuals or groups of self-isolating students. These will:

- use a curriculum sequence that allows access to high-quality online and offline resources and teaching videos, and that is linked to the school's curriculum expectations
- give access to high quality remote education resources
- use the online tools that are consistently used across the school in order to allow interaction, assessment and feedback (staff will be trained in their use)
- provide printed resources, such as textbooks and workbooks, for students who do not have suitable online access
- recognise that younger students and some students with SEND may not be able to access remote education without adult support, and so schools will work with families to deliver a broad and ambitious curriculum.

When teaching students remotely, schools will:

- set assignments so that students have meaningful and ambitious work each day in a number of different subjects
- teach a planned and well-sequenced curriculum so that knowledge and skills are built incrementally, with a good level of clarity about what is intended to be taught and practiced in each subject
- provide frequent, clear explanations of new content, delivered by a teacher in the school or through high quality curriculum resources and/or videos
- gauge how well students are progressing through the curriculum, using questions and other suitable tasks and set a clear expectation on how regularly teachers will check work
- enable teachers to adjust the pace or difficulty of what is being taught in response to questions or assessments, including, where necessary, revising material or simplifying explanations to ensure students' understanding
- plan a programme that is of equivalent length to the core teaching students would receive in school, ideally including daily contact with teachers

All staff will be instructed on the nature of COVID-19 and its transmission. They will confirm they understand the reason for the control measures that are required. All staff will confirm that they are confident in applying the control measures identified in school risk assessments. Staff will receive appropriate instructions in relation to the specific measures that have been put in place by the school setting. Staff will be involved in the practical implementation of the school risk assessments. The school will conduct a review of workload in the first term.

a) Premises/ Health and Safety

	Risk	Countermeasure	By whom?	By when?
1	Student or teaching group leader is sent home with symptoms of COVID	<ul style="list-style-type: none"> • Providing PPE for staff member supervising student. Designated suspected COVID isolation room, separate to normal first aid room. Deep clean of isolation rooms and areas staff member or student had contact with. • Refer to guidance on communicating with staff and parents • Information provided about testing procedure • Request to be informed of test outcome • If a test is positive, follow guidance about isolation and be part of the Test and Trace system • There will be an offer of training for staff for the use of PPE and its safe handling 	<p>Medical team using prepared action plan.</p> <p>NFY/EWN NFY/EWN</p>	1/09/20
2	Parents do not have confidence in the school being made sufficiently safe	<ul style="list-style-type: none"> • Frequent communication. • Clear expectations on arrangements and procedures if a child shows symptoms • Opportunity for parents to share concerns • Coordinated message across local schools 	<p>SLT and Pastoral Officers Facebook page manager</p> <p>NFY and other Heads</p>	<p>Week beginning 15/07/20 with further updates in week beginning 1/09/20</p> <p>As above</p>

		<ul style="list-style-type: none"> • Information on procedures in schools sent out prior to the start of term • Explain measure being taken to adapt the school's operations • Risk assessment published on website 		
4	Congestion at start and end of day	<ul style="list-style-type: none"> • Stagger drop offs and pick-ups <i>and inform of entry/exit points to school</i> • <i>Students with late start who arrive early to be put in holding areas</i> • One parent max • Limiting contact between parents and staff by maintaining the 1 metre plus rule • Drop off / collection stations at school gates • Staggered start and end times strictly expected longer slots allowing contingency if run over – these can be adjusted down going forward if necessary • Create holding areas for those students with a late start • Staff on duty at gates and entrances to site • Students asked to use hand sanitiser on entry and exit from site 	All staff to supervise following published plan	Plan published to staff by 13/07/20 and to parents by 17/07/20

5	Repeated touching of door handles increases risk of spreading infection	<ul style="list-style-type: none"> • Keep doors open where possible and appropriate • Ensure cleaning team clean all door handles and bannister regularly 	Caretaking Team + RHL to produce wedges if needed	1/09/2020
6	Maintaining avoiding contact between groups in the event of emergency evacuation	<ul style="list-style-type: none"> • Fire drill routine reconsidered and shared with all, then practised as soon as is practicable • New fire drill routine now in place 	NFR NFR	Rehearsed in week beginning 1/09/20 (Year 10) Week beginning 14.09.20)
7	Insufficient cleaning	<ul style="list-style-type: none"> • Discuss working hours of cleaners and draft in additional if necessary, to ensure sufficient capacity • Expect site managers to tour school repeatedly during the day to carry out routine cleaning • Staff who carry out cleaning are familiar with the cleaning and disinfecting processes that are required at this time. • Hire additional cleaning hours 	Claire Bailey + Site supervisors and SLT	13/07/20 and to be reviewed 1/09/20
8	Cross contamination in shared spaces	<ul style="list-style-type: none"> • 'Toilet management. Each school to plan how they timetable access and ensure regular cleaning for staff and students. • Protocol for students – hand sanitisation • Regular cleaning – social areas, dining room etc • Classrooms have supply of appropriate cleaning equipment • Replacement of towel drier systems with paper towel dispensers 	NFY Claire Bailey + Site Supervisors and cleaning staff	14.09.20 1/09/20

		<ul style="list-style-type: none"> • Regular review of supplies of soap and other cleaning supplies including sanitiser • Systems to ensure workbooks are not a means for cross contamination – switch to feedback • Teachers directed to teach from the front. Consideration given to role and location of TAs • Communicate with parents to reinforce expectations • Consideration has been given to where it is beneficial to restrict access to unused areas to support operational management. • Hand sanitiser used on entry and exit from classrooms 		
9	Parents send children who are unwell to school	<ul style="list-style-type: none"> • Clear guidance for parents on indicators and actions if child unwell and reporting to school to allow monitoring of those presenting with symptoms. 	NFY/EWN	15/07/20

17	Congestion using bike racks	<ul style="list-style-type: none"> • Students are advised to use the racks one at a time if necessary supervised by staff 	SLT and CBY Site supervisors to monitor	Request for info sent out week beginning 13/07/20

18	Travel	<ul style="list-style-type: none"> Parents are encouraged to only travel with members of the same 'class or year group 'bubble' Staff reminded not to share transport 	RHL/NFY	Week beginning 13 th July
----	--------	---	---------	--------------------------------------

b) Staffing/HR and capacity

	Risk	Countermeasure	By whom?	By when?
1	Unable to provide sufficient staffing	<ul style="list-style-type: none"> Contingency plans communicated to parents similar to 'snow days' 	NFY/EWN/JHL	Daily
2	Unable to staff provision of breaks/lunch for teaching group leaders	<ul style="list-style-type: none"> Maintain bubbles for students outside but with supervision maintain social distance using wider staff All schools to have arrangements for wet break ensuring a break for staff and students but maintaining minimal contact 	SLT	Daily
3	Staff not confident they will be sufficiently safe	<ul style="list-style-type: none"> Clear guidance and training for staff on appropriate use of PPE with sufficient PPE in stock to ensure compliance Specific training for site staff on infection control. Trust bank of risk assessments to support these decisions <i>All staff trained on keeping themselves safe, keeping their areas safe and protecting the other staff and students</i> 	NFY and CBY	13/07/20 (advice to staff) <i>Revisited over PD days in September</i>

		<ul style="list-style-type: none"> • Opportunity for feedback of any concerns in place • Trust well-being line available • FAQs from trust for staff 		
4	Infection enters the school site	<ul style="list-style-type: none"> • Engage with the LA Test and Trace process • Manage confirmed cases of coronavirus (COVID-19) amongst the school community • Contain any outbreak by following local health protection team advice 	NFY	13/07/20 (advice to staff)
5	Staff not aware of testing protocols	<ul style="list-style-type: none"> • Communication planning • Reinforce support available for staff and their families • Remind staff of self-referral testing process and employer testing referral process • Testing results to be communicated to school leadership 	NFY	13/07/20 (advice to staff)
6	Staff communal areas do not cater for social distancing	<ul style="list-style-type: none"> • Clear protocols for staff breaks / times / rooms / refreshments / toilets • Each bubble given allocated space for break times, staff encouraged to use outdoor spaces where practical, weather permitting • Staff requested to bring their own drinks containers • Staff required to maintain 1 meter plus if in staff room especially in kitchen area 	NFY	13/07/20 (advice to staff)

		<ul style="list-style-type: none"> Briefing to take place by Teams 		
7	Staff sharing equipment (part time)	<ul style="list-style-type: none"> No shared equipment for staff where possible. Rigorous cleaning of shared equipment Protocols around usage of shared equipment such as photocopying Regular cleaning of equipment between home and school such as laptops Bubbles reduce this occurring 	NFY	13/07/20 (advice to staff)
8	Staff PPA increases risk and reduces the impact of social distancing	<ul style="list-style-type: none"> Require staff to stay in their classrooms where possible 	NFY	July 2020
9	Reduced capacity due to a member of senior / middle leadership contracting Covid-19	<ul style="list-style-type: none"> Short-term: Re-allocate key duties during period of illness Medium-term: ask for support from USP to provide additional leadership capacity Identification of staff who are able to 'step-up' if required 	NFY/EWN	September 2020 and regular review
10	Impact on school development priorities / capacity to achieve priorities	<ul style="list-style-type: none"> Adjust current priorities to focus on re-establishing the school's core business Adjust priorities termly Seek support from the Trust for identified areas of concern/ weakness Sustained focus on Recovery curriculum 	SLT and all HoDs	July 2020
11	Induction for staff	<ul style="list-style-type: none"> Induction for new staff on all policies and procedures, if this has 	NFY/EWN	Week beginning 13 th July 2020

		<p>not already taken place as new protocols.</p> <ul style="list-style-type: none"> • Induction in new protocols for all staff who haven't been working during the closure period. • Training on H+S on PD day 		
12	Some traditional events in the school calendar are unlikely to be practicable	<ul style="list-style-type: none"> • Work through calendar of events and make decisions on practicalities 	EWN	Completed July 2020 and review again in September 2020 Reviewed monthly
14	Staffing for breakfast clubs	<ul style="list-style-type: none"> • Where possible, keep children socially distanced while queuing for breakfast club • Staff to maintain distance from children 	NFR + Vertas staff	July 2020 and reviewed weekly
15	Unable to provide lunch supervision particularly for 1-1 students	<ul style="list-style-type: none"> • Maintain bubbles outside but supervise using alternative staff maintain social distance • Risk assessment for each child in this category to review provision 	EWN/CWN/SCFS	
16	Staff unable to return to work due to lack of childcare for their own children	<ul style="list-style-type: none"> • Trust standard letter will be issued, as we expect employees to make arrangements with their child's school as keyworkers. Last resort is employee requests unpaid leave. • Consider rota patterns, flexible work requests and temporary alterations to contracts. • <i>Usual PPR rules apply for care for dependents</i> 	EWN	13/07/20 – advice to staff

17	Ensuring that staff who are in work but have household members shielding, can maintain stringent social distancing.	<ul style="list-style-type: none"> • Use attached template for risk assessments for vulnerable staff • Workplace risk assessments are in place and regularly monitored/reviewed. • Follow COVID 19 guidance for all educational settings 	EWN	13/07/20 (advice to staff)
18	Anxious staff	<ul style="list-style-type: none"> • Induction on new protocols to reassure on how risks are being managed to protect staff. • Constant reminder of trust wellbeing scheme and other support available including occupational health. • Regular communications with staff who continue to work from home. • Discuss opportunity of unpaid leave with staff who do not want to return to work and do not come under a vulnerable category. • <i>Regular welfare checks for all staff</i> • <i>Use Trust risk assessment where appropriate</i> • <i>Weekly drop in on Friday after school with NFR to raise concerns or offer suggestions</i> 	EWN/NFR	13/07/20
19	Staff transport into work	<ul style="list-style-type: none"> • All staff to minimise the use of public transport and use alternative methods of getting into work if possible. • School leaders to communicate clearly that any staff concerns 	NFY	Week ending 13/07/20 and reviewed weekly

		around transport need to be raised ASAP.		
20	Pregnant members of staff	<ul style="list-style-type: none"> • Should attend school • Pregnant staff should complete Trust Risk Assessment 	EWN/JHL	Reviewed monthly
21	Use of outdoor equipment spreads infection	<ul style="list-style-type: none"> • Outdoor playground equipment and seating areas will be more frequently cleaned. 	Site Team	Weekly

c) Curriculum

	Risk	Countermeasure	By whom?	By when?
1	School equipment spreads infection	<ul style="list-style-type: none"> • Staff and students have their own items that are not shared • Staff advised to demonstrate where appropriate • Visualisers allocated to each room • Classroom based resources, such as books and games, can now be used and shared within the bubble; they will be cleaned regularly, along with all frequently touched surfaces • Resources that are shared between classes or bubbles, such 	All staff, students and site team	Daily and as appropriate

		<p>as sports, art and science equipment will be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles.</p> <ul style="list-style-type: none"> • Students limit the amount of equipment they bring into school each day, to essentials such as lunch boxes, hats, coats, books, stationery and mobile phones. Bags are allowed. • Students and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, especially where this does not contribute to student education and development. Similar rules on hand cleaning, cleaning of the resources and rotation apply to these resources. 		
2	Children not in school miss out on education	<ul style="list-style-type: none"> • Use Attendance and APIO Team to support immediate return to work 	MKY/FHS and House Teams	From 1/09/20
3	Unable to deliver the full <i>curriculum due to shortening of lessons and any subsequent disruption to learning</i>	<ul style="list-style-type: none"> • Expectation that full curriculum will be covered • Work alongside SAA to deliver Recovery Curriculum 	All HoDs, SLT at SAA and NA	01/09/20 and reviewed regularly

		<ul style="list-style-type: none"> • Additional PD day plan for January 2021 		
4	Significant gaps in learning in all classes as they return	<ul style="list-style-type: none"> • Use SfA/PIXL to close gaps in English • Use updated Maths Mastery plans that accommodate lost learning • Subject leaders analyse lost learning and potential impact on cyclical curriculum • Adjust wider curriculum plans to accommodate lost areas of learning • <i>Deployment of resources financed through Curriculum 2020 resource</i> 	All SLT and HoDs	01/09/20
5	Lack of assessment for learning	<ul style="list-style-type: none"> • Maximise use of all PIXL assessments • Use MM pre/post assessment tools to provide gap analysis • Use Core Team meetings across school to monitor children's progress 	All SLT and HoDs	On-going
6	Insufficient attention to children's emotional needs on return	<ul style="list-style-type: none"> • Schools will support: <ul style="list-style-type: none"> - the rebuilding of friendships and social engagement - address and equip students to respond to issues linked to coronavirus - support students with approaches to improving their physical and mental wellbeing • Standing agenda item on House briefing • <i>Deployment of additional resources to fund counselling</i> 	EWN/AHL/FHS	From 1/09/20

		where necessary funded by Racing Foundation and Covid 19 Fund		
--	--	---	--	--

d) Personal Development including Social/Emotional well-being and Behaviour including attendance/exclusion

	Risk	Countermeasure	By whom?	By when?
1	Unable to provide staggered break and lunch times for students	<ul style="list-style-type: none"> • Monitor, through Core Team Meetings, level of need across school and deploy staff accordingly • Maintain breaks and lunches through bubbles if necessary, supervising from distance 	All SLT + All staff	On-going
2	Children aren't clear on school routines	<ul style="list-style-type: none"> • Induction/practical training for staff/parents/children – video before the 1st September if possible • Clear system for any accepted movement around the building including one-way systems with clear signage / marking with tape etc. • <i>Requirement for high staff presence on corridors and working spaces to ensure routines are followed</i> • Students given badges to identify year group – staff provided with Hi-Vis jackets 	NFY	13/07/20 (advice to staff) 15/07/20 (confirmed to parents and carers) Republished w/b 1/09/20 NFR led safety briefing for staff and all year groups in first week Weekly H&S update to all staff and students 14.09.20
3	Children don't follow hygiene rules	<ul style="list-style-type: none"> • Schools have regular and repeating notices/training/ assemblies (in 	All staff	Training on PD day Delivered from 1/09/20

		<p>small group) using technology where possible for staff (one pre-recorded video to be used when needed?), children and parents on expectations for hand washing, tissues, coughing, hand gel, not sharing equipment</p> <ul style="list-style-type: none"> • <i>Consistent message delivered in period 1 for first fortnight</i> • <i>Use of IE for students who do not follow rules</i> 		Daily review
4	Unable to safely use facilities	<ul style="list-style-type: none"> • Consider restrictions on equipment or taking it out of action 	LCK and all staff	1/09/20
5	Children require additional support to follow these measures	<ul style="list-style-type: none"> • Work with parents by phone • Use of technology to model (video) 	House Teams and all staff	1/09/20
6	Effect of insufficient transition activities during the summer term	<ul style="list-style-type: none"> • Consider staggered starts when schools re-open • <i>Implementation of Recovery Curriculum</i> • <i>Sustained focus on literacy</i> 	SLT and all staff RHL RHi	Agreed 13/07, communicated to parents 15/07 and reviewed at SLT fortnightly
7	Behaviours for learning takes time to establish and are challenged by some students	<ul style="list-style-type: none"> • Refresh Behaviour Policy • Run a whole-school project for children and teachers to 're-connect' • Adjust class compositions, if necessary, for September, to create a better balance • Use virtual assemblies to re-establish the school's rules/codes etc. 	EWN + House teams + IE officer	September 2020

		<ul style="list-style-type: none"> • Re-establish expectations and the principles of learning that the school has already in place • Use of whole school slides on expectations to be used in every first lesson 		
8	Attendance is poor	<ul style="list-style-type: none"> • Remind and work with parents/ carers to quickly re-establish good attendance habits especially. PAs • Inform parents/ carers that the school has been deep cleaned to reduce fears of C-19 infection 	SBY + MKY SLT + House teams	Review from 4/09/20
9	Returning to an unfamiliar setting causes anxiety for students	<ul style="list-style-type: none"> • <i>Transition tasks sent to all year 6 students – as well as orientation video</i> • <i>Offer of counselling in place funded by Covid 19 Fund</i> • <i>Meet the tutor evening on-line</i> • <i>HT has visited 5 primaries to meet Year 6 students to do Q+A session</i> 	All tutors + SLT and KHE	From July 2020
10	High risk students with challenging behaviour require restraint posing additional risk to themselves and staff	<ul style="list-style-type: none"> • Staff allocated according to relationships thereby reducing potential for risk • Clear expectations on need for social distancing – work with families and trust if student unable to comply • Review of Internal Exclusion to be able to provide an effective service 	House teams + all staff	From September 2020
11	Higher than usual numbers of safeguarding disclosures	<ul style="list-style-type: none"> • Ensure all staff and any volunteers are equipped to receive disclosures 	House teams + all staff + FHS	

		<p>and know who and how to pass them on/record them</p> <ul style="list-style-type: none"> • The trust has revised the recommended child protection policy to reflect the return of more students • Designated safeguarding leads (and deputies) will be provided with sufficient time, especially in the first few weeks of term, to help them provide support to staff and children regarding any new safeguarding and welfare concerns and the handling of referrals to children’s social care and other agencies where these are appropriate • Attention is paid to communication with school nurses • Training from Beth Mosley team on PD day • Deployment of additional counselling • Weekly standing agenda item at SLT meeting 	and Beth Mosley team	
12	Students return having been traumatised by their experience of the COVID-19 restrictions	<ul style="list-style-type: none"> • Ensure staff are aware of sources of help and resources available • Deployment of additional counselling 	FHS and EWN	Review weekly

e) Vulnerable children (SEND/LAC)

	Risk	Countermeasure	By whom?	By when?
1	Children with SEND do not have needs met	<ul style="list-style-type: none"> Some students with SEND (whether with education, health and care plans or on SEN support) will need specific help and preparation for the changes to routine that this will involve, so teachers and special educational needs coordinators should plan to meet these needs, for example using social stories 	CWN + support from LCW	Review weekly
2	Children have suffered trauma, both in existing challenging situations known to the school, or new situations previously unknown to the school	<ul style="list-style-type: none"> Late August briefing of trauma session for use at September PD day 	FHS and EWN	Review weekly
3	Provision for Polaris children	<ul style="list-style-type: none"> Separate risk assessment being produced 	CFS	Review weekly

Appendix one – Subject specific risk assessments RE: Covid-19

Draft risk assessment for the management of practical activities during Covid-19 pandemic within Food Department at Newmarket academy.

Prepared by A. Evans - 08.09.2020

Risk		Actions to be taken	Additional notes
Children			
Social distancing – Children are currently not required to socially distance within their year group bubble		<p>Side by side would be achievable in the non-practical classroom section of the classroom. Face to face are allowed during practical lessons. Our room allows a space of 1.35 metres between face to face workstations. Students will have to work side by side which is no different from classroom placement.</p> <p>Controlled entry into the room is via playground entry as to maintain social distance of bubbles entering the technology buildings 4 classrooms.</p>	<p>Students will be required to stay at their workstation and not to wander. Designated areas will be given to each child</p> <p>System of lining up behind subject chairs awaiting teachers to escort into the classroom.</p>
Staff		<p>Face shields should be worn in the food room in the event of providing closer instruction or attending to an incident. Staff should have their own dedicated PPE.</p> <p>Office space only allows one person in at a time. Cleaning of the deck and telephone and touched surfaces between visitors.</p> <p>Adapting lessons / reducing activities to allow extra time for cleaning.</p>	<p>Face shields to accommodate glasses sourced.</p> <p>See First Aid</p> <p>Antibacterial wipes to clean down and antibacterial hand sanitiser provided for staff used.</p> <p>Allowing at least 1 hour for cleaning down after a practical lesson and 10 minutes for theory lessons</p>
Equipment	Fixed	Fixed equipment e.g. Cookers, sink and worktops – washed as normal (hot soapy water and rinsed) but then cleaned with anti- bacterial cleaner between classes.	Students clean down as normal technician to use food safe sanitiser cleaner. Left to air dry
	Portable	Hand- held equipment e.g. stick blender, electric whisks and food processors wiped as normal then wiped with anti- bacterial wipes	Students clean down as normal technician to use food safe sanitiser spray and cloth after the

		between. These can be shared in year bubbles but must be cleaned and sanitised or quarantined for up to 72 hours (plastic)	students have left the area. Equipment left to air dry. Equipment will be checked before being put away. Items will be labelled with “next use by date” labels if being quarantined.
	General	All other equipment will need to be washed up in detergent in hot water and rinsed. Equipment will need to be checked for cleanliness before placing away.	Items will be labelled with “next use by date” labels if being quarantined for 72 hours. Storage needs to be labelled to prevent access before date use.
Food preparation	Demonstrations	Teacher demonstrations will be carried out on the teachers work- station. A marked exclusion zone on the floor denotes where students may stand and watch. Teachers equipment used for demonstrations. Ingredients weighed out by technician. See note additional in sensory testing	Teacher and technician to wear face shield PPE as full 2m social distancing not always possible (2m – 1.6m). Equipment will not need to be quarantined as only used by teacher.
	Sensory testing	Technician prepares ingredients placed on trays and put into the central bay. Sinks at the top of the bay used for washing up of items used by students. Items then quarantined/ cleaned for use in the same year bubble.	Ingredients weighed out by technician adhering to standard hygiene rules and wearing face mask and shield/ gloves/ washable cloth apron to prevent cross contamination.
	Practical lessons	KS4 will need to provide all their ingredients. Ingredients need to be divided into fridge and ambient products. KS4 will need dedicated fridges for each year group. Items placed on a tray then technician /teacher place them in dedicated fridge.	Students will need to weigh their ingredients at home due to time restrictions of lessons/ classroom closure during breaks. Teacher / technician must wear PPE when touching the tray/ boxes.

		<p>Ambient items placed into dedicated year boxes and stored on top of fridge containing year group items</p> <p>Year boxes/ trays placed outside food room playground door.</p> <p>Students to provide their own aprons.</p> <p>Oven gloves (PPE) will need to be washed between lessons at 95 degree Celsius and tumbled dried.</p> <p>Students will be given a dedicated numbered workstation. They should remain in place throughout the lesson and put hand up before moving through the classroom.</p> <p>Workstations set up with all equipment and instructions before the start of the lesson. Equipment left out for checking cleanliness and quarantined if required for a different year bubble.</p>	<p>If both year 10 and 11 are cooking on the same day clearly marked boxes will be out.</p> <p>Review of school aprons use if they can be quarantined for 72 hours between uses of bubbles. Alternatively bag individual aprons to be used by specific students.</p> <p>Washing required only between year group bubbles.</p> <p>Restriction of student movements allows teacher or technician to observe students work.</p> <p>Using equipment provided to prevent students accessing equipment that has been quarantined/prepared for the next lesson.</p>
--	--	--	--

		KS3 currently no food practical lessons as issues with Kitchen size / available work- stations. Currently takes an hour between year bubbles to clean kitchen area.	This will be reviewed as the term goes on.
Cleaning	Hand sanitiser	Students / staff sanitise on entering/ leaving the room. Staff provide with alcohol- based hand sanitiser that must not be used in kitchen side of food room as flammable.	Technician to check the sanitiser is filled daily. Foam based hand sanitiser provided by school.
	Hard surface clean down	Classroom side tables and chairs cleaned between year group bubbles using an anti-bacterial spray cleaner.	Technician / teacher cleans using product provided by school. Technician to refill when empty.
	Computers /staff office	Cleaned down when needed between year 10/11 bubbles using antibacterial wipes Office desk and phone cleaned after every use between staff member usage	Current product – Aldi anti-bacterial wipes. Door to remain open.
	Hand washing	Every sink will have dedicated soap/ paper towels to be disposed in main kitchen bins.	Sinks are cleaned after every practical. Current product -Tesco essentials handwash
	Washing up liquid	Every sink has a dedicated bottle of washing up liquid.	Bottles cleaned down between practical lessons Current product – Aldi Magnum original/citrus
	Sanitiser	All surface will be cleaned down with a food safe dedicated kitchen sanitiser.	Full clean down with sanitiser between practical lessons. Awaiting / current product - Jantex kitchen cleaner and sanitiser. Food room use 1:20 The product passes BS EN 1276 with a contact time of 5 minutes at a dilution of 1:40, and 30 seconds at a dilution of 1:10.

	<p>Disinfection between year bubbles</p>	<p>Due to limited equipment cold sterilising solution will be required for main equipment as quarantining will not make equipment available in time.</p> <p>Downside - Metal utensils cannot be sterilised with method so utensils will need to replace with dedicated year group utensils.</p> <p>Initially year 10 and year 11 students to cook.</p>	<p>Current product – Milton sterilising tablets 1 tablet per 5 litres of water and soak pre-cleaned items for 15 minutes. Solution active for 24 hours allowing to sterilise many times over.</p> <p>Blue tub will be used to soak (10 l capacity = 2 tablets) a bucket will be used to fill and can be filled for other taller items (jugs etc)</p> <p>Cost = 6p tablet or 14p liquid.</p>
	<p>Washing</p>	<p>Washing facilities are limited at present due to building works and removal of the laundry room.</p> <p>Tea towels/ wash clothes</p>	<p>Building of the kitchen store/ laundry will increase current washing facilities as only one washing machine available at present.</p> <p>Current product – Aldi Almat biological washing powder.</p> <p>Washed on a 95-degree Celsius wash and then tumble dried.</p>
	<p>Bins</p>	<p>Lids of bins to be removed before practical to prevent interaction.</p>	<p>Bins to be emptied after each practical of different year bubbles.</p>
	<p>Spills</p>	<p>Students will be instructed to clean spills with paper towels. If additional equipment is required, then students will have to step away allowing 2m distance so staff may clean the area safely.</p>	<p>Paper towels at each sink for hand washing can be accessed for spills.</p>
<p>KS4 provision</p>	<p>Practical lessons will be essential to both Year 10 and Year 11 initially.</p> <p>Year 11 groups will have access to the ICT equipment for their NEA.</p> <p>Year 10 groups may have to access to the ICT equipment in the food room.</p>	<p>Year 10 and year 11 will be cooking.</p> <p>Food practical lessons for the 4 groups will need to be staggered as both year groups have double lessons on the same day so the room will need cleaning between year bubbles (1 hour recommended).</p> <p>Equipment dedicated to year 11 only</p>	

		Provision for year 10 will fixed computer stations in classroom. Keyboard covers used and mouse and monitors wiped with anti – bacterial wipes.
KS3 Provision	Reviewed in October 2020	
First Aid	<p>Minor incidents- First aid instructions will be given e.g. treating a burn/ how to access plasters so students can attend to themselves with distanced supervision.</p> <p>Immediate remedial measures – verbal instructions to be given immediately and if time allows access PPE packs next to First Aid kit. Face mask/ shield, then gloves and apron.</p> <p>Hands should be washed immediately and thoroughly after removing and “bagging” used PPE.</p> <p>All PPE to be placed in Biohazard bag and disposed of appropriately as current school policy dictates.</p>	<p>Plasters stored in year groups pouches for access by students.</p> <p>Full individual packs of PPE stored next to the First aid boxed containing - Disposable Apron/ Nitrile blue gloves not sterile)/ Face mask (KN95) and Yellow Biohazard bags (small). Foam hand sanitiser is also provided.</p>

PE Adaptations

After reviewing the most up-to-date guidelines from the UK Government, Sport England, Association for PE and National Governing Bodies for a variety of sports; and discussions with PE teams from other schools, here is a summary of how we intend to organise PE to ensure it is as safe as possible:

It is important to note that we will be following both Government and local guidelines very carefully, and will be flexible in order to best keep the students safe if there are changes. This may include changes of activity or procedures.

Changing: Those with PE Period 1 or 5 will only change at one end of the lesson in order to reduce the amount of time spent in changing rooms. Students will be kept in consistent groups for PE. Each group will now change in a separate area of the Academy:

- Boys group: Outdoor changing room
- Girls Group: Art Block outdoor changing room
- Mixed group: Boys & Girls Leisure Centre changing rooms

Both outdoor changing rooms have been extended in terms of changing space, to ensure maximum distancing. The Indoor changing rooms will each only have half a group in, which leaves adequate room for social distancing. All will have marked changing places for each person They will be cleaned between uses by different year groups.

Activities: The Government guidelines state that:

Schools have the flexibility to decide how physical education, sport and physical activity will be provided whilst following the measures in their system of controls.

Sports whose national governing bodies have developed guidance under the principles of the government's guidance on team sport and been approved by the government are permitted. Schools must only provide team sports on the list available at [return to recreational team sport framework](#).

Only activities on this list will be taught, and the guidelines from each Governing Body will be followed rigidly. These can all be found by following the link to each Governing Body website on the linked document above.

Location: For the start of term we will maximise the use of outdoor spaces and the natural ventilation/space this allows. Moving to and from spaces will be straightforward, since it will not only be completely outdoors, but will be outside of lesson change over times. When we begin to teach indoors, maximum ventilation will be used by opening fire doors, spacing will follow NGB guidelines, and there will only be one group per space (no doubling up)

General: Equipment will be used minimally, will not be shared except where safe (such as using a Netball) and that used, thoroughly cleaned between each use. Staff will remain socially distant from students, but will have hand sanitiser, anti-bacterial spray and wipes on them at all times, as well as a mask and gloves for any medical emergencies.

All guidelines & procedures will be continually monitored and changed if necessary to ensure that risks to students are minimised.

Draft proposals for the management of practical activities during Covid-19 pandemic within Technology and Engineering at Newmarket.

1. As students are not required to socially distance from each other within their year group bubbles, it would be acceptable for them to face each other at a workbench or cooking station. We do however, have the flexibility to split a class over two rooms in Technology providing each room is supervised by an appropriately trained adult e.g. technician.
2. Where a class is timetabled in a workshop but not undertaking practical work, the class should relocate to a suitable classroom.
3. Y11 students will require regular access to ICT equipment for their coursework. If, due to timetabling constraints it is not possible to access an ICT suite, it will be necessary to have a laptop trolley. The laptops will be cleaned, as will the IT equipment after each session.
4. Current DfE guidance requires that any equipment being transferred between bubbles is either cleaned ('meticulously') **or** quarantined for up to 72 hours, depending on the material.
5. In general, there are three groups of equipment which need cleaning:
 - Fixed equipment, such as workshop machines.. These items can be shared within a bubble, but must be cleaned between bubbles, this will involve wiping with anti-bacterial wipes and allowed to air dry.
 - Portable/hand held equipment, such as cordless drills etc. These can be shared within a bubble but must be cleaned or quarantined between bubbles. Cleaning will be similar to fixed machines, alternatively, where there is enough equipment; it can be quarantined for up to 72 hours then brought back into use.
 - If key equipment is needed before the 72 quarantine hour period has elapsed – perhaps because the total number of items is limited (e.g. cordless drill) then cleaning could be considered to bring the item(s) back into use provided they are suitable for cleaning and sufficient time is available to allow that cleaning to be 'meticulous'.
 - Materials, such as timber, used by the students can be shared within a bubble, but not between different bubbles.

- Materials and ongoing products made by students will be very difficult to clean, the most appropriate way to manage such items will be quarantine for up to 72 hours. Resources placed in quarantine storage must indicate clearly when they are next 'safe to use'.
6. As there is limited physical contact with most fixed machinery in the workshop, these can easily be cleaned with anti-bacterial wipes (power buttons, levers, work table etc.)
 7. At the end of any practical session, all equipment and spare materials should be cleared away and cleaned (as described above) **or** quarantined prior to being stored away for future use.
 8. Waste material should be placed in a suitable bin and removed from the room prior to the next session.
 9. Marked out workshop machine 'zones' will be created which students can be directed to in a managed way. Movement will be in a clockwise direction within the room.
 10. Where students need to move around the room, to access fixed machinery etc they should raise their hand to attract the teacher's attention and ask permission to move to use a particular piece of equipment.
 11. Students will collect a set of safety glasses at the start of the lesson and retain them for the duration of that lesson for personal use. We should consider the 24/7 rule for retaining PPE throughout a lesson. At the end of the lesson, students will place them into a bin which will be filled with Milton and sterilised for 20 minutes. The safety glasses will then be laid out to air dry before use again.
 12. All respiratory masks issued by the school for wood dust purposes should be FFP3 in grade, these must never be shared and should be disposable. Masks should be disposed of to a rubbish bag that can then be sealed and disposed of at the end of each lesson.
 13. Workstations to be clearly labelled with a number, 1 being furthest from the entry point (2 the next furthest and so on)
 14. Where possible, workstations to be set up before lesson with any instruction sheets, equipment and ingredients as appropriate.
 15. To avoid movement students should be able to carry out practical work using the vast majority of equipment at their workstation.
 16. Practical rooms should have a planned route for teacher supervision and for students to enter and leave. Students should be observed during practical activities at a distance by the teacher.
 17. It is recommended that teachers and support staff wear a face shield in workshops/kitchens in the event that they are required to respond to an incident or need to provide closer instruction.
 18. A plan of the room showing the position of the workstations, zones and movement plan to be displayed in the room.
 19. Staff will need their own demonstration equipment.

20. Where close contact is needed, the teacher may 'break' the 2m social distance, but suitable PPE will need to be worn to minimise the risk of any transmissions.
21. Hands should be washed immediately and thoroughly after removing any PPE.
22. Hand sanitising fluids should not contain any alcohol due to the potential fire risk in food rooms and technology workshops.
23. Staff will also need access to their own PPE – Safety glasses,
24. For minor spills individual students will be instructed to clear up their own small, localised spills using paper roll provided at their workstations under teacher instruction.
25. For larger spills all students will be required to be evacuated from the room in an orderly fashion as at the end of a lesson.
26. Following practical activities, students will wash/clean all the equipment that they have used.
27. Lesson activities to be shorter to accommodate extra cleaning time.
28. For minor incidents requiring first aid, individual students are to be instructed to deal with it themselves at their workstations under the instruction of a first aider (such as accessing plasters in a Safety Zone, flooding burns etc)
